RE: Amendments to Society Hill's Site Plans

Dear Beth:

Thank you for your time in helping me resolve all outstanding matters regarding the Society Hill at University Heights Community.

To confirm our conversation of October 3, 1994, the following is a list of items agreed upon to consider the amended site plans as having final approval.

- 1. Submit six copies of Revised Landscape Plan showing plantings on both ends of the buildings. (enclosed)*
- 2. Submit 6 copies of Revised Site Plan showing addition of trash enclosure between buildings 28 & 29 along Matthews Drive. Estimated completion & delivery of plans by October 10, 1994.*
- 3. Above six copies of Site Plans to include revised building footprint location on building 27 to allow a minimum distance of fifteen feet from existing water main.*

I look forward to our meeting on the 19th of October with Al Zach. If you have any questions please do not hesitate to contact me at (908)272-0088 ext. 117.

*Sincerely,
K. Hovnanian At Newark Urban Renewal Corporation, III, Inc.*
